PROFESSIONAL SUMMARY

Data Analyst Intern with 1 year of experience at Frugal Testing, writing SQL queries and building BI dashboards (Tableau, Power BI, Looker Studio, Google Sheets) using Google BigQuery. Leveraged SQL to keep data clean, accurate, and fresh across pipelines, automating manual reporting workflows and enabling real-time, data-driven decisions across Lead Gen, HR, and Operations teams.

EXPERIENCE

Data Analyst Intern, Frugal Testing

Aug 2025 - Aug 2026 (1 Year)

Vectran

- Architected Vectran, a centralized analytics platform, cutting reporting turnaround by 35%, by consolidating data from 3+ SaaS apps into a unified Google BigQuery warehouse.
- Engineered 5+ REST APIs using FastAPI, reducing ingestion latency by 30%, by designing secure, high-throughput endpoints and integrating Apollo, HubSpot, and Instantly.
- Optimized ETL/ELT pipelines processing 100K+ records/day, cutting transformation errors by 40%, via robust validation logic in SQL.
- Delivered 8+ Looker Studio dashboards and an AI-powered NL-to-SQL feature, saving 15+ hours weekly by replacing manual reports across 4 cross-functional teams.
- Leveraged Claude (AI assistant) to accelerate dashboard design, SQL scripting, and report automation, cutting development time by 25%.
- Presented Vectran analytics and key findings directly to internal stakeholders across Lead Generation, HR, and Operations teams, driving faster data-informed decisions.

Blog Engine

- Architected Blog Engine, an AI-powered programmatic SEO & GEO automation tool, boosting client organic rankings by 45%, by auto-generating keyword-targeted blogs for high intent, location based queries.
- Automated keyword research and LLM based content generation, publishing 50+ SEO/GEO-optimized blogs, increasing client Domain Rating (DR) by 15-20 points and onboarding 7+ clients.
- Conducted client-facing product training on the Blog Engine platform, onboarding 7+ clients and improving self-service adoption by 40%.

DataNexa

- Built a Chrome Extension for LinkedIn Sales Navigator, automating 90% of prospect data collection via REST API sync into the central platform.

Email Validation Platform

- Developed a bulk email validation system for 5K+ addresses, improving campaign deliverability by 35% via 5 category risk classification.

ENTREPRENEURIAL VENTURES

Crosstecch.com - Independent Tech Venture

- Built Crosstecch, a tech products & solutions venture, from the ground up - covering product ideation, development, and go-to-market.
- Engineered Bug Finder, an automated bug-detection tool under Crosstecch, that scans applications and auto-flags issues, cutting manual QA effort significantly.

LoadSetu - Client Prototype Project

- Secured a client engagement to design and build LoadSetu, a truck aggregator platform prototype connecting shippers with truck operators for real-time load matching.
- Leading end-to-end prototype development - from system architecture to core booking & tracking workflows - to demonstrate feasibility ahead of full-scale build.

PREVIOUS EXPERIENCE

Data Science Intern, Bokaro Steel Plant

May 2024 - Jun 2024

- Built an AI-based Electric Meter Reading System using Machine Learning and Flask, improving accuracy by 95% and cutting manual inspection time by 70%.

TECHNICAL SKILLS

Languages: SQL

Data Engineering: ELT, Data Warehousing, Data Modeling, REST APIs

Cloud: GCP, BigQuery

Analytics & BI: Tableau, Power BI, Looker Studio, Google Sheets

Tools: Instantly, Clay, Apollo.io, Git

PROJECTS

- **Smart Agritech** (Sep-Nov 2024): ML-powered crop prediction & farmer-to-consumer marketplace with real-time alerts.
- **AthleteEdge AI** (Mar-Apr 2025): AI-powered sports analytics platform using OpenCV, YOLO, and MediaPipe for performance and injury prediction.
- **Student Exam Repository** (Jun-Sep 2024): Full-stack platform for organizing and accessing university exam papers by course and semester, used by 1000+ students.

EDUCATION

B.Tech CSE, GIET University, Gunupur - CGPA: 7.5

June 2022 - June 2026

ACHIEVEMENTS

1st Place - Startup Fair, GIETU TechFest 2025 | 3rd Place - Hacknovation 1.0 2025 (SwasthaAI) | 2nd Runner Up - AI Hackathon 2025 | 2nd Runner Up - Smart India Hackathon (Internal) 2024 | Selected - MSME Idea Hackathon 5.0 2025
